An entire chapter meeting devoted to networking!

A brief review of networking strategies and techniques will be followed immediately by games to fine tune our networking skills and make those ever-important job contacts! Our expert host will engage us in effective networking games that enable you to meet and exchange information with many people in a very short time. You will meet people in an informal, friendly setting while collaborating to perfect your skills. So, invite your friends and colleagues (don't forget, men are invited too) and print out those business cards! Come to polish up your introduction, exchange cards, share networking skills, make new friends, and find out who is doing what in Bay Area science.

**Scientists and Science Enthusiasts, Men and Women, and non-AWIS
members are welcome!**
